Lend-Lease Arms Flood Europe for Invasion

WEAPONS SENT TO FRONT AT GROWING RATE

Total Aid To Allies Now Valued at More Than 24 Billion Dollars.

By The Associated Press WASHINGTON, May 22—Lend-lease arms and equipment to pour a three-way invasion stream at Europe are moving out this country at a steadily growing rate. President Roosevelt today said that the report on lend-lease operations...

They are armed with the most powerful weapons that the combined resources and ingenuity of the United Nations can produce. Through lend-lease we have made certain that every man in the forces of the other United Nations who goes into battle beside an American fighting man has what he needs to hit the common enemy as hard as possible.

Total Now 24 Billion The report shows \$24,225,000,000 worth of equipment, services and supplies have gone from this country's lend-lease arsenal...

China is being helped to the utmost of our ability," Mr. Roosevelt said. "But the report itself shows the supplies being flown into that country already recorded in terms of air transport were only a trickle against the flood equipment being massed before the Nazi front.

More than \$1,000,000,000 in planes and parts, a like amount of guns and ammunition and almost that value in tanks and war vehicles have gone to the United Kingdom—three-fourths of them in the past year. British bombers are dumping, American-made charges on Germany and American fighters roar up from the decks of British carriers.

In the first 60 days of 1944, the report shows, more than 2,100 lend-lease planes, almost 2,000 tanks and other military vehicles were sent to our allies the bulk of them to invasion dumps.

Nearly \$4,750,000,000 in lend-lease aid has gone to Russia, two-thirds of it in the past year. Up to March, 1944, we had sent Russia 8,800 fighters and bombers, 150,000 military trucks, 36,000 jeeps, 5,200 tanks and tank destroyers and 30,000 other military vehicles.

Reverse Aid Increases The report showed a mounting tide of reverse lend-lease. Emphasizing the pooling of allied fighting equipment, it said: "In proportion to their available resources our principal allies are putting into this war fully as much as we are, including lend-lease aid."

Here is the report's breakdown of lend-lease to the United Kingdom, 42.5 per cent; Russia, 27.6 per cent; Africa, Middle East and Mediterranean, 14.4 per cent; China, India, Australia and New Zealand, 11.2 per cent; Latin America, 0.8 per cent; all other, 3.5 per cent.

In the Pacific and Far East almost \$2,000,000,000 worth of lend-lease have been poured into the fight against Japan.

Marion Air Gunner Missing in Action

Staff Sgt. James B. McDonald, 20, waist gunner on a Liberator bomber, reported missing in action since an air raid over Austria on April 23, is pictured above. His wife, Mrs. Margaret Thacker McDonald, lives on East Church street and his parents are Mr. and Mrs. O. J. McDonald, superintendent and matron of the Marion County juvenile detention home. Before entering service Sgt. McDonald was employed as a telegrapher with the Erie Railroad Co. and prior to that was a student at Harding High school. He went overseas last December after taking his aerial gunnery training in Colorado, Texas and Kansas. A detailed story about him appeared in Thursday's Star.

ARMY SEIZES WARD PLANT

Hummer Manufacturing Co. Resumes Operations After 17-Day Labor Dispute.

By The Associated Press SPRINGFIELD, Ill., May 22—Hummer Manufacturing Co., second Montgomery Ward property to be seized by the army within four weeks, resumed production today under government operation when workers on the early shift returned to their jobs.

Lt. Col. Nelson Talbot, war department representative in charge, said 198 of 200 workers on the early shift reported at 7 a. m. "over 90 per cent—all we could notify last night" of the 225 normally employed on the two-day shift, agreed to report. The plant employs 550, including some 100 office workers.

There were no disturbances and John J. Saxon, plant manager, said he and other plant officials were "cooperating to the fullest extent" with a 10-man Army contingent which took possession of the plant.

Here is the report's breakdown of lend-lease to the United Kingdom, 42.5 per cent; Russia, 27.6 per cent; Africa, Middle East and Mediterranean, 14.4 per cent; China, India, Australia and New Zealand, 11.2 per cent; Latin America, 0.8 per cent; all other, 3.5 per cent.

In the Pacific and Far East almost \$2,000,000,000 worth of lend-lease have been poured into the fight against Japan.

U. S. CARRIERS ATTACK JAP MARCUS ISLAND

Base 1,190 Miles from Tokyo Blasted by Planes in Two-Day Raid.

By The Associated Press Marcus Island, 1,190 miles southeast of Tokyo, was heavily attacked Saturday and Sunday by a carrier-borne force, a Japanese broadcast disclosed today. The worried enemy, added the Berlin radio, sounded air raid alarms throughout north and east Japan.

"Enemy naval units," presumably Pacific fleet ships under command of Adm. Chester W. Nimitz, approached from the east and launched a two-day aerial blow against the small but strategically-situated island. A Tokyo broadcast added that 32 raiding planes were shot down.

The broadcast was the first word of such a strike—a first year—and recalled that the Japanese were the first to disclose last week's carrier raid against Soerabaja, Java.

The island is some 700 miles east of the Japanese-held Bonin islands, 700 miles northwest of Wake and almost midway between Tokyo and the Marshall Islands.

Closer Blow to Tokyo Tokyo was approached from still another direction, and much closer than Marcus island. A Liberator bomber Thursday struck at Shimushiri, a Kurile island 400 miles from Nippon's main islands, thus achieving the closest approach yet on any land-based Allied plane to the enemy capital.

Other airman under Nimitz' command also bombed Nauru island and enemy-held Marshall bases. Pratas island, 190 miles southeast of Hong-Kong on the China coast, likewise was bombed. The island is 275 miles from the Philippines.

The most important land fighting in the Pacific was centered in the seemingly imminent victory of Lt. Gen. Joseph W. Stilwell over the enemy defending Myitkyina in northern Burma. The Japanese were boxed in on three sides and appeared on the verge of collapse. Myitkyina is vital to control of the Burma road.

Firm Line Established A firm line has been established on an area four miles northwest of the city from Charpate to Namkwi, blocking the enemy's Burma railway and road communications between Myitkyina and Mogauing to the west, and Fort Hertz far to the north, a southeast Asia command communiqué said.

(A Chinese communiqué said "one of our columns advanced to a position 1,100 yards past the north landing strip" to win the junction.)

The southern approach to Myitkyina and the airfield are firmly held by the allies, Adm. Lord Louis Mountbatten's bulletin said. Before the onset of the heaviest rains American bombers and fighters struck enemy positions and dumps in the Kamaing-Mogauing-Myitkyina sectors Saturday preparatory to a newly unified and intensified allied blow to exterminate the Japanese in northern Burma.

The Chinese were reported to have repulsed Japanese reinforcing attempts in the Kumaon hills. Gen. Stilwell's troops were reported in a communiqué yesterday to have taken a third of Myitkyina in heavy street fighting, and U. S. airmen sank boatloads of enemy trucks seeking to flee across the Irrawaddy river.

Chungking said its forces had achieved successfully their initial objectives in crossing the Salween river toward a junction with Stilwell's forces.

Nazi Sub Base of Kiel Pounded by Fortresses

Liberators Attack Invasion Coast and Hundreds of Fighters Shoot Up German Trains and Ships.

By The Associated Press LONDON, May 22—Flying Fortresses bombed the German submarine center of Kiel and U. S. Liberators pounded German fortifications in the Pas-De-Calais area of France today after a night in which 750 heavy British bombers saturated the major inland Nazi port of Duisburg with 2,800 tons of explosives.

The double-barreled daylight blow carried the newest allied aerial prelude to the western invasion past 80 hours of continuous day-night attacks.

Up to 350 Flying Fortresses and the same number of Liberators, each group protected by swarms of American fighters, struck the twin assault.

Hannover, a rail and rubber center, and a German airfield in Belgium, were other British targets of the night.

Thirty British planes were lost in the night attacks. In all some 3,000 allied planes.

CRAWFORD CO. DRIVER KILLED

Dyas Harvey Meets Death When Train Hits Car Near Galion.

Special to The Star GALION, May 22—Dyas Neil Harvey, 71, Crawford county farmer, was killed instantly at noon yesterday when his automobile was struck by an east-bound New York Central Express train on a crossing at the Marion-Morrow county line about four miles west of Galion.

The auto was dragged along the track for about 50 feet. The car was badly damaged and slight damage resulted to the train.

On the express were William Hubbard, engineer, and L. H. Costin, conductor. The train was bound from St. Louis to Cleveland. Damage to the engine necessitated a change-over at Galion.

Mr. Harvey had apparently stopped for a train on the north side of the double line and did not see the approaching express. Mr. Harvey was born Feb. 9, 1872, in Crawford county to George W. and Elizabeth Neil Harvey. He spent his entire life in Crawford county. In 1896 he was married to Anne Rexroth, who preceded him in death in 1934.

His second marriage took place in 1937 to Hazel Neil, who died in March, 1943. He is survived by his children, Mrs. Mary Assenheimer and Mrs. Margaret Neff of near Bucyrus, Miss Helen Harvey of Long Beach, Calif., and Lt. Edwin Harvey, stationed with the Army Air Force in England.

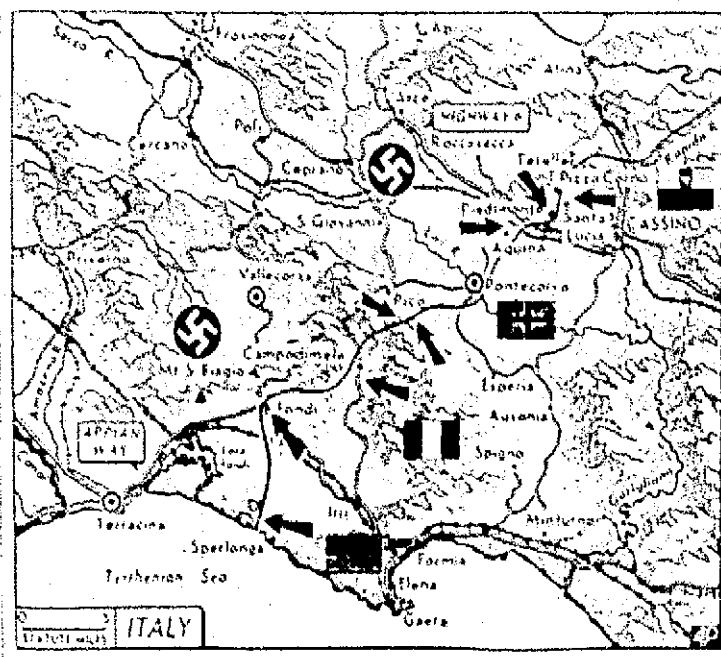

Funeral services will be conducted Tuesday afternoon at 2 p. m. at Zion Evangelical church. Rev. J. H. Patterson will officiate. Burial will be made in Oakland cemetery. Friends may call at the Assenheimer residence on Route 4 near Bucyrus.

Marion Woman Meets Death On Hike into Hills of Idaho

Mrs. Eva Gillespie's Desire To See Silver Mine Ends in Death from Exposure; Body Found After 600 Jolt in Search.

A Marion woman, Mrs. Eva Gillespie, 21, died of exposure on a long hike in the hills of Idaho early Saturday, her parents, Mr. and Mrs. Alfred T. Roberts of 561 North State street, were notified over the week-end.

Mrs. Gillespie and her year-old daughter had been making their home at Challis, Idaho, for the last five weeks and planned to stay there until Mr. Gillespie, now a Seabee in service in the Pacific, returned from service.

An Associated Press dispatch from Challis today reported Mrs. Gillespie had attempted the hike in the snow-covered mountain country near Challis on the premise of a steak diner if she completed it. Sheriff Lee Clark of Challis said the body was found 14 miles southwest of Challis, clothed in two sweaters, hiking breeches and boots. She had formerly hiked through the same area with her husband.

Writes About Plans She unwittingly told her parents the first part of the story of her death in a letter they received Friday when she wrote about the Bay Horse silver mine 10 miles from where she lived, and said she planned to hike over the hills to see the mine soon.

Friends at Challis had tried to dissuade her from going, she wrote, but she told her parents, "I'm going to go if it kills me." Ironically, it was the hike that caused her death.

Apparently inclined, she thought little of starting out alone on the 10-mile hike last Friday morning. When Friday night came and there was no word from her, her husband's sister, Miss Oda Ann Gillespie, 17, who had been with her in Idaho, spread an alarm and virtually the entire community of 600 residents turned out to conduct an organized search.

Body Found in Afternoon At 4 p. m. Saturday—the day after she started her hike—her lifeless body was found in the hills. Her legs had been frozen, and overexertion and exposure were given as the cause of death. It is supposed by relatives that she had arrived at the mine and had started back home when she became exhausted, partially from weariness and partially from the rarified atmosphere in the hills. The time of death was fixed at approximately 10 a. m. Saturday.

Mrs. Gillespie had gone to Idaho with her year-old daughter, Peggy Joy, and her husband's sister, Miss Gillespie. Mrs. Gillespie had been in Idaho for six months, there having spent six months there shortly after her marriage, and she had found relief there for an asthmatic ailment. It was for relief from asthma that she decided to hike in Idaho until her husband returned from service.

Husband Former Plant Guard Her husband, Joseph S. Gillespie, before entering service was a guard at the Defiance Prison, Steel Co. plant and before that was an Erie railroad employee. He and Mrs. Gillespie had made their home in Prospect and Marion since their marriage.

Mrs. Gillespie was born in Long Bottom, Mo., March 4, 1923, to Edward T. Roberts and Nevada O'Brien Roberts. The family lived at Columbia for a time and later near Canton and came to Marion about nine years ago. Mrs. Gillespie attended Harding high school for a time. Her husband, daughter and parents survive.

The body will be sent to the Edwin K. Smith Home for Euthanasia later in the week. Arrangements are being made for Rev. Howard Buckley of the In-

YANKS SEIZE, THEN LOSE HUB OF NAZI LINE

Advance Troops Driven from Town When Germans Rush Reinforcements.

By The Associated Press ALLIED HEADQUARTERS, NAPLES, May 22—American patrols who entered Terracina, German anchor on the Italian west coast, have been driven back, it was announced today.

U. S. troops established a line 4,000 to 5,000 yards (from 25 to 3 miles) northeast of Terracina as the Germans threw in fresh troops, headquarters declared, and the Germans were reported fiercely resisting a renewed American thrust southwest of Pico in the center of the front.

The Germans rushed reinforcements from the north into the sagging coastal line sector against the Americans, and Lt. Gen. Mark W. Clark's troops quickly captured 100 prisoners from them.

Headquarters declared the German now have 17 divisions committed against the main offensive and the Anzio beachhead, and have "nothing left in reserve south of Rome."

French troops toward the center, took lost and then recaptured today Monte Leucio west of Pico on the road from Pontecorvo. Canadians penetrated the Hitler line northeast of Pontecorvo, on the lower edge of the Liri valley, placing barbed wire entanglements, headquarters said.

The first troops to push into Terracina—only 24 miles across the Pontine marshes from the Anzio beachhead—had reported only light German rearguard resistance.

On the beachhead itself, U. S. patrols pushed out five miles from the right flank of the Pico line to results achieved and the Germans reacted with a sharp counterattack southwest of Cisterna.

The Germans threw their 28th armored division into desperate fight on the main front to save the flank of their Hitler line defenses.

A headquarters spokesman said allied losses had been "considerable" but not too high in relation to results achieved and the extreme casualties inflicted on the Germans.

Units of the Eighth army burst into Piedmont on the north side of the Liri valley west of Cassino, and were mopping up trapped Germans.

At the lower edge of the valley, the Allies punched into the outskirts of Pontecorvo, and in the center of the Italian front cut the Pontecorvo-Pico road, seizing Monte Leucio, and driving toward Pico itself. Pico is the swing point of the line to Terracina, heavily-manned when the Fifth army crushed the southern flank of the first Hitler defenses.

(The German command, suggesting Pico might already have fallen, broadcast that allied troops had broken into the town repeatedly, but had been thrown back. A Swiss broadcast said Pontecorvo had been taken by the Eighth army.)

Nine-Mile Advance Terracina was entered in a swift nine-mile American advance on the west coast.

Parts of the Pontine marshes have been flooded by the Germans, and made impassable. There was no evidence whatever in the day's official reports to indicate the Germans were yet preparing to halt their flight along the coast. Nor was there any sign of an enemy stand to prevent a junction of the pursuers with Anzio beachhead troops.

Inland, the vaunted defenses of the remaining section of the Adolf Hitler line were punctured at several points, allied troops cutting the Pontecorvo-Pico road, capturing Monte Leucio and punching into the outskirts of Pontecorvo.

From Monte Leucio, taken by French Infantry and American tanks, the allies commanded the Liri valley floor west of Pontecorvo, and dominated positions to the east where the Germans still were fighting off British and Canadian Eighth army forces. Street fighting raged yesterday in the town of Piedmonte on the north side of the Liri valley after

General Clark at Front, Narrowly Misses Death

**General Clark at Front, Narrowly Misses Death**  
By The Associated Press  
ON THE FIFTH ARMY FRONT IN ITALY, May 22—Lt. Gen. Mark W. Clark, fifth army commander, narrowly missed being killed when a well-disguised booby trap on an abandoned German artillery piece exploded less than 25 feet from the jeep in which he was riding yesterday.

The explosion critically wounded one soldier and injured several others who had been standing near the Nazi anti-tank gun. Clark, who was making an inspection tour of the front, was told someone had been tinkering with the abandoned gun.

After the injured men were being treated, Clark warned other soldiers not to get too close to the abandoned gun.

While the Gustav line, the most powerful German defense in Italy, continued his inspection.

## HELP YOUR COMMUNITY DRIVES .. and You Help America

In Colonial days when a family faced misfortune, kindly neighbors set up a melting pot before the door. The community was quick to contribute, because lean and perilous years taught our forefathers that only by helping one another could all survive and earn security in a land of growing opportunities.

Today, when this hard-won security is in jeopardy, our country and many of its citizens need a helping hand. The Red Cross, the War Chest, the scrap and salvage drives and other calls on each community are realistic reminders of the pioneer spirit that bound our nation together... that gave us the highest standard of living the world has ever known. When we help our neighbors we help our country.

In addition to supplying the armed forces with glider and bomber fuselage frames, wing parts, gun turret parts and foodstuffs, Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum • Munitions • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper • Soap and Textiles—to name a few.

AGOSTA SCHOOL ALUMNI  
ANNUAL MEETING HELD

Robert Everett Elected President for Coming Year.

Robert Everett of Agosta was president for the coming year at the annual meeting of the Agosta High School Alumni Association Saturday night at the Agosta Hotel. Miss Evelyn Porter was elected vice president and Miss Mary Withrow of

Agosta, secretary, and Clarence Dutton of Marion, treasurer. More than 100 members and guests attended the banquet and dance held in the school gymnasium. Miss Lois Kramer, association president, welcomed the 1944 class and the response was made by Leo Pinkerton, president of the class. The class was presented by Paul Furness, superintendent. A memorial service was conducted by John Moore of Marion, in honor of three members of the association whose deaths occurred during the last

year. Mrs. Daniel Schmidt read the names of members of the association now serving with the armed forces. Thirty-five young men and five young women, graduates of the school are now in service.

The program by Patty Payne and community singing completed the program. The tables were decorated with bouquets of spring flowers and bouquets of blue and white flowers, together with crepe paper streamers decorated the hall and earned out the 1944 class colors.

The Sole Aim of  
All Hughes Services

Those who think that the services of the Hughes Funeral Home are primarily concerned with care of the deceased are much mistaken.

Our first and most important duty is to lessen the sorrow of the bereaved. Everything that may be done toward that end is the first consideration.

The services of Mrs. Hughes are much appreciated by our patrons. This has been especially true when we are called to serve for a woman or a child.

America Leases 1,400  
Ships To Great Britain

WASHINGTON, May 22—The United States—now the owner of one world's largest Navy—has leased almost 1,400 naval craft to the British under lend-lease.

They include more than 300 cargo-carrying aircraft carriers, destroyer-escorts, and merchant ships, a lend-lease report showed today, and are in addition to \$200,000,000 worth of landing barges, PT boats and other smaller craft sent to the United Kingdom.

The bigger vessels which sail from American docks under their own power are leased to the Allies for the duration of the war. Title remains with the United States.

Nazi General Bagged in  
Raid

Gen. Heinrich Kripke, commander of the Nazi 22nd Panzer Division in Crete, is questioned by British officers in Cairo after he was kidnapped from Crete on April 26 in one

of the most daring exploits of the war. British soldiers in the raiding party, familiar with his habits, stopped his car. Then he was driven through a large town and 22 German posts to a coast rendezvous with their ship.

Polls and Election  
Analysis Give Both  
Parties Even Break

By GEORGE GALLUP  
Director, American Institute  
of Public Opinion

PRINCETON, N. J., May 20—Whether the present political strength of the Republican and Democratic parties be appraised by scientific sampling polls or by an analysis of the special congressional elections in recent months, the answer is virtually the same.

The chances of a Democratic or Republican victory, if Franklin D. Roosevelt and Thomas E. Dewey are the candidates, are about fifty-fifty at the present time in terms of civilian popular votes.

That division is not only indicated by special elections already held but also by data received as recently as last Monday through public opinion polling on the question of how people would vote if a Presidential election were held today.

The question is: "If the presidential election were being held TODAY and Roosevelt were running for president on the Democratic ticket against Dewey on the Republican ticket, how do you think you would vote?"

ROOSEVELT . . . 51%  
DEWEY . . . 48%

This does not constitute a prediction of what will happen when the voters go to the polls next November. It reflects the situation only as of the first half of May. Events of the next few months, both on the war front and on the home front, will have more than ordinary importance in influencing the political tides. The survey results do not take into account the soldier vote which has been found to favor the Democrats and would therefore increase the Roosevelt percentage.

Offsetting the soldier vote advantage, however, are two disadvantages which the Democrats face. Because of the overwhelming Democratic majorities in the south, the Democratic party normally needs about 52 per cent of the major party popular vote for the nation in order to win in the electoral college. Moreover, in 1936 and again in 1940, the Republican candidate was found to be greatly aided by the publicity and attention which he received at the time of the nominating convention.

LEE SWICK FUNERAL  
TO BE HELD TUESDAY

Masonic Service Arranged for  
Accident Victim.

Funeral services for Lee Swick, 32, a resident of the Marion Masonic temple, who fell to his death in the elevator shaft of the building Saturday morning, will be conducted Tuesday at 2 p. m. at the Metairie H. Hughes mortuary on Mt. Vernon avenue. Rev. George F. Baker, retired Presbyterian minister at Marion, and a Masonic past master, affiliated with Marion Lodge No. 20, F. and A. M., will officiate. A Masonic committal service will be conducted at the graveside at Marion cemetery. Mr. Swick was a member of Marion Lodge No. 70, of Marion Chapter No. 62, R. A. M., and of Marion Council No. 22, H. and S. M.

An investigation by an inspector for the company which manufactured the elevator, called here from Columbus Saturday disclosed that the automatic brake on the car failed to hold, causing the car to shoot to top of the shaft instead of staying at the second floor where Mr. Swick left it. The brake was supposed to catch when electric power was turned off at a designated floor landing. When Mr. Swick left the elevator at the second floor, he evidently intended to return to the car shortly. The car was not supposed to move when landing doors were left open. When the brake failed to catch, weights which counter-balance the car drew it to the fourth floor where it was discovered by Harold Hall, Masonic secretary, when he investigated a sound he heard from the elevator shaft. The lever which controlled movement of the elevator was still at neutral when the car was found, indicating that the brake should have been holding. Intending to return to the elevator at the second floor landing, Mr. Swick fell as he stepped from the landing, it is believed.

## HORSTMAN MAY GET DEMOCRATIC RULE

The Associated Press  
May 20.—The steps which would name Horstman national committeeman to succeed Charles Sawyer of Cincinnati, Sawyer has said he does not want the job again.

The delegates will dine with State Auditor Joseph T. Ferguson, their first choice for president, and will map convention plans.

The second step is expected tomorrow when newly-elected members of the state central committee meet to name a chairman.

Horstman is almost certain of the central committee chairmanship, but his selection as executive committee head depends on whether the central committee decides to constitute itself as the executive committee in charge of the fall campaign. Most leaders believe the committee will handle the campaign and name Horstman to the dual chairmanship.

A move against renomination of Vice President Henry Wallace was initiated by State Central Committeeman Francis W. Durbin of the fourth congressional district.

Durbin, in a letter to Horstman, urged support of Federal Judge Frank L. Klee of Toledo for the Democratic vice presidential nomination.

**King's Daughters Of 4 Counties Meet Here**

The annual group convention of the Ohio branch of King's Daughters opened this morning at Epworth Methodist church, with Mrs. B. H. Rice, county president, presiding.

The morning session was given over to a business meeting with reports from each circle. A talk on the work among the American Indians was given by Mrs. Franch Crow. This afternoon's program was to include a message from the state president, Mrs. Fred Spieker of Toledo and special music by Mrs. Eugene Moore accompanied by Mrs. Cecil Davis.

The group present at the convention includes circles from Morrow, Crawford, Marion and Logan counties.

## Joy Comes To People of the South Seas

Americans Release Coral Island Natives from Half Century of Serfdom.

**THREE R'S**—Missionaries now conduct schools without interference from authorities. The Japanese banned mission schools and turned native churches into warehouses.

By MORRIS LANDSBERG  
Associated Press Writer

**AN ADVANCED BASE IN THE MARSHALLS**—These are great days for the little brown people of the atolls.

The war is all around them, but they're enjoying a peace they haven't known for half a century.

They're learning that the Americans have a different way of doing business than the Germans and the Japanese.

Church doors are open once again.

Families are being reunited with menfolk whom the Japanese shunted off to strange islands to work in labor battalions for a pittance.

Supplies are coming in, even in small quantities at first.

Medical aid is on the way.

The gradual American envelopment of the Marshalls has been like the lifting of a curtain on a phase of Japanese activity which Tokyo had been careful to conceal.

Actually, it has taken a war and a few costly battles to bring about a long overdue audit of Japan's "books" for the mandated islands of the central Pacific.

**New Government**

The accountants are the new American military government under Navy control. Never far behind the assault and occupation troops, they have nearly half of the 34 Marshall Islands to work on as a starter.

Japan saw to it after 1935 that the world should know little of what was going on behind the reefs and coconut palms of the mandated empire—the Marshalls, the Carolines and the Marianas—which she took from Germany in 1914.

True, she had accepted League of Nations terms in 1920 for a Class C mandate over the three island groups, but in 1935, Japan withdrew from the League, posted a "Keep Out" sign and, it is apparent now, went to work in earnest on strategic military, naval and air bases.

Japan, however, didn't spend all of her time putting armor on the mandate.

She had an ambitious four-pointed program: to develop the islands' trade, to colonize them with Japanese nationals, to "Japanize" the natives and to establish military bases.

**Staff Greatly Enlarged**

Where the Germans had administered the Marshalls with a staff of four or five, the Japanese in 1937 had 85. The government-sponsored Nanyo Kōkai Kaisha (South Seas Trading Company) flourished not only in exporting copra and other products, but in selling its own goods to the natives. No non-Japanese concern has operated in the mandated sphere since 1914.

The Japanese did allow certain improvements. Roads were built. Some medical aid was introduced. The government furthered the construction of wells and water tanks to help overcome the ever-present shortage of drinking water.

The Marshallese often paid a stiff price for everything. At Lae Island, recently occupied by

**LIGHT UP**—Natives in the Marshall Islands atolls go big for American cigarettes. Here some stop near a beachhead still guarded by troops to swap butts and invasion small talk.

Americans, troops found the Japanese had stripped the native village. In more than one place they had aroused resentment by grabbing land for military purposes.

The Japanese used native labor as much as possible. It was not unusual for the natives to put in a full day's work for the equivalent of five cents in American money. And all the while, their duty in copra rose steadily.

**In Poor Condition**

At Wotho, Ujae, Lae, Ailinglapalap and Namu islands, medical examination revealed generally poor health among the sturdy people. One American doctor predicted that the race would become extinct unless it had proper medical care.

The Japanese hampered religious worship by the many Christianized natives. Children between 8 and 11 were not allowed to attend mission schools.

Native churches were converted into storehouses. The Marshallese sometimes held their services in the open, but the Japanese were suspicious of the missionary training.

All this is behind the nearly 5,000 Marshallese who have come

under the American flag. Their village autonomy has been restored. The Navy is working to restore conditions to as near normalcy as the war will permit. It has proved a happy change for the people of the corals who since 1885 have been ruled by Germany and Japan.

Because of the newspaper shortage, regular English newspapers are limited to four pages.

## MALARIA AMONG ANZIO HARDSHIPS

By International News Service  
ON THE ANZIO BEACHHEAD, Italy—Malaria of the most virulent variety, which last year hit 80 out of every 100 inhabitants in the Pontine Marshes, today had the beachhead command up in arms, battling with every weapon known to science, to check or check the added, and unwelcome, operational complications in the famed battle sector.

What started out a fortnight ago as a routine operation to determine how effectively Mussolini's "Pontine Program" had rid the marshland of malaria yielded alarming evidence of the Fascist dictator's progressive neglect of his prime project.

**Men the Duce Forgot**

The drawn faces of thousands of malarial-suffering Italians who openly damn their leader of yesterday for "having put us here to begin with and then completely forgotten us these past three years" stand as a living monument of Mussolini's criminal guilt.

The larva-laden, web-work of channels of stagnant irrigation ditches and canals are a serious problem, which must be dealt with before warm weather comes.

AMG officials, under orders of Brigadier Gen. John E. Burke, Home, Washington, D. C., acting in accord with the beachhead commander, have decided on a further evacuation of civilians to rear areas where they can be properly cared for.

**Clean Out Marshes**

Gen. Joe Martin of Chicago, Fifth Army surgeon, has begun energetic prophylaxis of all troops in the area combining the medical facilities of British and American forces and of the AMG.

Alfred engineers, working under Medical Corps orders, have undertaken a vast program of

prevention in the marshland canal-dredge disease will determine the extent of their resistance—both in strength and time—to the Axis and Nettuno, provided facts and figures of the effects of Mussolini's progressive disinterest, and with the aid of two Italian HELENA ARMY AIR FIELD, nurses is cooperating to provide As. An instructor at the art relief for the small number of field here just couldn't prove not Italian civilians that cannot be sent to the ground all so serve as wind fees. Ordinarily when the wind blows, cows stand around our beachhead with their tails to the wind. But per meter face the same threat of every time he went to give an example, a few queer Arkansas And it is not too much to say herefor had to be different and that their ability to cope with the stand cross wind.

## HEAVY CORN DAMAGE BY BORER LIKELY

By The Associated Press  
CHICAGO, May 22.—Damage to the 1944 corn crop from the European corn borer may be quite heavy, grain traders asserted today on the basis of reports on the winter mortality of the pest. The borer caused a loss of \$53,000,000 to the 1943 crop.

Typical of most comments was that made recently by J. J. Davis, head of the entomology department at Purdue university, who warned Indiana farmers there is an abundance of borers to provide a heavy infestation this season.

Two methods recommended in the control of the moth, according to Davis, are the use of herbicides that will stand up under better conditions and planting at a maximum rate according to the fertility of the field.

The area affected most by the European corn borer extends from the Atlantic coast westward across the corn belt into eastern Iowa and Missouri.

Damage in 1943 was almost double the loss of \$17,000,000 in 1942, according to the department of agriculture.

## "HANDLER HANK" HEAD-ING HOME

Marine sergeant credited with killing 28 and one half Japs in the southwest Pacific, recuperates at a California hospital from wounds he received at Tawana, but soon he'll be headed for home at Tomball, Tex. He is without his handlebar mustache which buddies say turned white after six months in the battle areas. The credit for killing half a Jap came when he and a buddy fired simultaneously at a sniper. ## Television Seminar To Clarify Future Quality

By The Associated Press  
NEW YORK, May 22.—The television seminar, now under way through the guidance of the Radio Executive club, may or may not clear the air in the present controversy over television's future quality. But in its 15 weeks there is every possibility of some lively sessions.

While the seminar does not propose to settle anything on operating standards and the like, that being up to the federal communications commission with the cooperation and advice of engineers and technicians, little should have been left unsaid on any side by its close Aug. 24.
